DETAILED ACTION
EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 38-73 and 99-137, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability.

Allowable Subject Matter

Claims 1, 9, 10, 37-73, 81, 82 and 99-137 are allowed.

The following is an examiner's statement of reasons for allowance: applicant's arguments on p. 13-14, filed on 7-15-08, are deemed persuasive and furthermore, the prior art taken alone or in combination fails to anticipate or fairly suggest the limitations of the claims, in such a manner that a rejection under 35 USC 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 37.

Specifically regarding claims 1 and 37, Scozzafava et al. (4514481) teaches the state of the art of electrophotographic layers.

But, Scozzafava et al. fails to explicitly teach a combination of all the claimed features including the chemical structure provided in independent claims 1 and 37, as claimed.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
